JasmineSavathallapalli

Education

Vellore Institute of Technology, Vellore

Master of Computer Applications

Present

Current GPA: 7.86 / 10

Sri Venkateswara University, Tirupati

Bachelor of Computer Applications

2024

GPA: 8.9 / 10

Sri Chaitanya Junior College

Sri Chaitanya School

2020 – GPA: 9.37 / 10

2018–GPA: 10 / 10

Technical Skills

Core Areas: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks, Machine Learning, Deep Learning, Natural Language Processing (NLP), Cloud Computing, Agile Methodology, API Development

Languages: Python, Java, C, JavaScript

Frameworks & Libraries: MERN Stack, Django, Flask, FastAPI, React.js, Node.js, Express.js, Bootstrap, Tailwind CSS, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Pygame, Qiskit, OpenCV, TensorFlow

Databases: MySQL, MongoDB

Tools & Platforms: AWS, VS Code, Git, GitHub, Jupyter Notebook, Google Colab, WordPress, Maltego

Design & UI/UX: Figma, Canva, Wireframing, Prototyping, User Flow Design

Projects

Fake Currency Detection using Ensemble Approach | CNN, XGBoost, SVM, Python

Ongoing

- Built an ensemble-based currency classification model combining CNN for feature extraction and XGBoost-SVM for final prediction, improving classification accuracy by 18%.
- Implemented advanced preprocessing, training optimizations, and hyperparameter tuning, resulting in 22% faster training and improved model stability.

Classroom Booking for Slow Learner Sessions | React.js, Node.js, MongoDB, Express.js

2025

- Developed a responsive MERN stack web app with real-time room availability, reducing manual scheduling effort by 70%.
- Integrated secure user authentication and accessibility-focused UI, enhancing overall user satisfaction and inclusiveness by 30%.

Online Job Fair Application | Java, HTML, CSS, JavaScript

2024

- Built a dynamic job fair platform supporting resume uploads, job postings, and application tracking, automating over 60% of the recruitment workflow.
- Integrated admin and applicant dashboards with smart scheduling features, improving employer-candidate engagement by 40%.

Work Experience

M/S Sattva Infotech | Student Study Portal

Jan'24 – May'24

Python Full Stack Developer Intern

Tirupati

- Developed and deployed responsive web applications using Python, Django, HTML5, CSS3, and Bootstrap, enhancing front-end functionality and cross-browser compatibility.
- Integrated RESTful APIs and managed CRUD operations with MySQL, improving data efficiency and backend performance. Collaborated in Agile environment to implement user-focused UI/UX features.

Certifications

- AI & Quantum Computing Mastery** – Udemy
- Scrum Master Certification** – Agile Enterprise Coach
- Career Essentials in Generative AI** – Microsoft
- UI/UX Design** – Udemy
- WordPress Website Developer Course** – Udemy
- Python and Flask Framework Complete** – Udemy
- ChatGPT Prompt Engineering Mastery** – Udemy
- Career Essentials in Cybersecurity** – LinkedIn
- Python Essentials** – Cisco Networking Academy
- Google Analytics Certification** – Google Skillshop
